PRESENTATION

My name's Emilien, and I'm a 16-year-old high school student studying for a maturité fédérale, with a major in economics and law. I live in the canton of Vaud in Switzerland and started competitive karting in May 2024.

I race with my Spirit-karting team in the Vega Trofeo and the Swiss championship and have started international races.

My category is the X-30 SENIOR (125cc, 30hp engine, top speed ~125km/h).

BEFORE KARTING

I played football for 10 years and was selected to join a regional team called Foot Région Morges (FRM). I was able to develop and progress in this team for 5 years. In 2023, I had the opportunity to go go-karting more frequently and I was immediately fascinated by the speed, the adrenalin and the precision required to drive. So I started taking lessons with a coach, multiple champion Nicolas Rohrbasser, who suggested I move up to competition level. So I left my football team to devote myself fully to karting.

MY VALUES

Surpassing yourself and striving for excellence

In my career, I am constantly striving to achieve the highest levels of performance.

Each race is a new opportunity for me to aim for excellence.

I love giving it my all right down to the last second of the last lap to try and overtake as many rivals as possible.

This relentless pursuit of perfection, whether in terms of lap times, technique or strategy, is a powerful driving force that pushes me to surpass myself every day.

MY VALUES

Teamwork

Success in karting is above all a question of collaboration.

Personally, I'm convinced that every member of the team, whether mechanic, engineer or partner, plays a crucial role in the overall improvement.

To know that when I finish my lap of the circuit, a mechanic and a coach are there to listen to my feelings about the kart is incredible, as is the fact that I can benefit from their advice.

MY VALUES

Resilience

Karting is a challenging sport.

My ability to bounce back from hardship and stay focused on my goals, even in difficult times, is essential for moving forward and builds my character.

Resilience allows me to maintain my determination in the face of obstacles and to learn from each experience to make myself stronger.

THOSE WHO ARE WITH ME

NICOLAS ROHRBASSER

Nicolas is my coach, accompanying me during races and training sessions and helping me to improve my performance as quickly as possible. He is a multiple Swiss champion in KZ (the top category in karting, 6-speed karts) and is world champion in rental karts.

« In his first year of competition, Emilien did more than just keep up with the pack: he outpaced it. Blessed with unfailing concentration and a rare ability to make up for his lack of experience, he embodies a controlled enthusiasm that enables him to juggle speed and precision. His lightning progress and thirst for learning leave no doubt: he is destined to shake up the rankings. Behind his helmet is a mind of steel, an innate sense of racing and hard work. Emilien isn't just dreaming, he's building his path to victory every day, and it's a huge pleasure for me to work with such a talent. He'll go far! »

Participated in the weekend's races with chassis damage that didn't allow me to place.

IAME FINAL GAMES:

Saturday: major problems with tyres and set-up which put us in last place.

Sunday: Qualifying: P16/24 - Race: P11/24

MY GOALS

2025 season :

Finish in the top 3 of the Swiss championship by racing internationally at the same time

Season 2026 :

Finish in the top 10 of the European Championship

Season 2027 :

From 2027 onwards two choices depending on opportunities:
either Formula 4 in the Italian championship (or Spain or Germany) and the European championship at the same time
or Clio/Polo closed car championship, then evolution to Porsche GT in 2029 with one year of GT racing in between

These objectives are achievable if there is sufficient financial support.
